

# CAPTAIN 3100

## RELIABLE VIDEO PROVIDES A RELIABLE WITNESS

The Captain 3100 is a high quality mobile surveillance trailer in a smaller foot print. The system is designed to provide reliable video collection for shorter durations. This is perfect for an unattended, medium-term deployment on a remote street or at an event. It is a great solution for education, and law enforcement organizations.

The Captain 3100 is self-powered and can operate unattended up to 10 days using its efficient gasoline generator. If there is shore power available, the run time is indefinite.

This system allows the ability to rapidly deploy the system and be live via its cellular connection. The focus is simplicity and the collection of great video on its 2TB video management system.

Connecting to the VMS (Video Management System) is simple. The VMS system allows users to monitor the system via an application or over the web, on computers, tablets and smartphones. It is a full level VMS and provides site and camera monitoring, retrieves recordings, searches using thumbnails, and allows you to configure all your systems from one location.

### KEY FEATURES

- Falcon 3100 Mobile Surveillance System
- MP Status and Control System
- Robust Email and SMS Notifications
- 19'6" Stabilized Electric Mast system
- Gas Generator System – 10 Day Est. Operation per full tank

- 900 Ah AGM Battery Pack
- 2 – PTZ Camera 30X 1080P, IR
- 1 – Fixed Dome Camera 8 MP Multi-sensor, 360°, IR
- 4G Cellular Modem/Router
- WiFi System Local Hot Spot/WAN as WiFi
- 16 Port Gig Network Switch
- Semi-Hardened Laptop VMS 2 TB HD
- Approx. 25 Days of Retained Recordings
- Video Management Software
- Top Mast Strobes
- Tool-less Removable Camera Mounts
- 40,000 Lumen Top Mast Light Kit
- Heavy Duty Front Wheeled Jack
