

METRO LITE 3400

RELIABLE VIDEO PROVIDES A RELIABLE WITNESS

The Metro Lite 3400 hybrid mobile surveillance trailer configuration is designed to provide highly reliable video collection. This is a useful solution for commercial, education, and law enforcement organizations. This configuration considers that it will have an unattended long-term deployment on a remote street or at an event. The system will operate using a gas generator for a few weeks on a 20-gallon tank of fuel and will have the ability to be monitored remotely via cellular.

The Metro Lite is a lighter featured configuration and provides excellent defense and deterrent capabilities that include:

- Top mast strobes provide a longer distance recognition of the system when in alarm status.
- Body riding lights can be set to be continuous light or to flash as a deterrent or safety indicator.
- The PTZ camera allows you the ability to zoom to get clear closeups or park the camera on a point of interest. The image quality is outstanding even in low light with a range of 450 feet in total darkness.
- Gas generator to provide a long deployment approx. 20+ days per full tank.

KEY FEATURES

- Commander 3400 Mobile Surveillance System
- MP Status and Control System
- Robust Email and SMS Notifications
- 36 ft. Stabilized Electric Mast system
- Fold Down Electric Mast Operation
- Gas Generator System – Approx. 20+ Days Operation per full tank

- 1200 Ah AGM Battery Pack
- 1 – PTZ Camera 30X 1080P, IR
