

SITE MONITOR 6000

EXTREME MONITORING

The Site Monitor configuration of the Power Sentry offers the best of both camera types, the super high quality imagery of the fixed camera has a wide video viewing area, and the PTZ camera allows the user to zoom in and see crystal clear imagery even at great distances. The system easily mounts on existing poles with 120 VAC to 277 VAC constant or scheduled power. A 35Ah battery provides up to 10 hours of operation without a power source. The battery charges within 6 hours. The system operates wirelessly 24/7 providing live video streaming and recording.

KEY FEATURES

- **Visibility** – See everything with the megapixel fixed camera providing a great field of view. In addition, a HD 1080P PTZ camera can zoom in on points of interest.
- **Detect Activity** – There is a single PIR detector to reach out 40+ feet to detect motion in the area. (optional 80')
- **Scheduled Operation** – Activate your system during specific hours
- **Deploy** – Mounts on wall or pole
- **Power** – This system is primarily configured for constant or scheduled power operation.
- **Reserve Power** – One 35Ah battery provides approximately 10 hours without power.
- **Communicate** – Via embedded 4G cellular connection/WiFi
- **Be Informed** – Receive emails on alarms
- **Remote Video Access** – See live video of the remote location
- **Record** – For up to 3-5 days, includes SD card storage (based on camera configuration)
- **Forensics** – System maintains 3-5 days of recorded video available at any time
- **Remote Control** – Control and reset your system
- **Remote Status** – MP Status provides the ability to see critical information about your device, remotely control activities, and be notified of any abnormalities
