

SITE PROTECTOR 3400

PROACTIVE SITE PROTECTION

The Site Protector 3400 hybrid mobile security trailer configuration is our stand alone proactive detection and deterrent tool engineered to protect locations where you have valuable areas to defend. It is engineered to work hand in hand with the MP Defense and MP Status systems offering a truly full featured protection platform.

The typical uses for the Site Protector are for areas where there is a need to have detection and reporting of a breach. Electrical substations, construction yards and both permanent and temporary worksites are obvious uses. The Site Protector can be very quickly deployed into a site, making it possible to provide defense when and where the need is the greatest.

The Site Protector configuration has a full complement of defense and deterrent options that include:

- Top mast LED area flood
- Mid mast LED area lighting
- Top mast strobes
- Body riding lights
- Audio system
- Operates for weeks on a tank of fuel for unattended operation
- Full automation and reporting with notifications
